AI-Integrated
Development Training Program

Your Path to Becoming a Modern, Job-Ready Software Developer

- Full-Stack | Frontend | Backend | Database

- React | Angular | Next.js | Node.js | SQL/NoSQL

- AI-Assisted Coding | Cloud Deployment

Scan to Register

| Learn. Build. Deploy. Grow. |

Why Become an AI-Integrated Developer?

- 85% of companies hire full-stack developers

- AI-assisted development is now a required skill

- Multi-framework developers earn 30–50% more

- ITTSTAR's training focuses on real-world, deployable skills

What This Program Includes

Frontend Development
HTML, CSS, JS, React, Angular, Next.js

Backend Development
Node.js, Express.js, APIs, Auth

Database Mastery
MySQL, PostgreSQL, MongoDB

AI Tools for Devs
Copilot, ChatGPT, Auto-doc, AI debugging

Full-Stack Development Program
(6 Months)

A job-oriented program that builds complete full-stack skills across frontend, backend, databases, cloud deployment, and AI-assisted development with real-world project focus.

- ✔ HTML5, CSS3, JavaScript (ES6+)
- ✔ React.js, Angular, Next.js
- ✔ Node.js & Express.js
- ✔ REST APIs & Authentication
- ✔ SQL + NoSQL Databases
- ✔ Git/GitHub & DevOps Basics
- ✔ AWS + Vercel Deployment
- ✔ AI-Assisted Development

Highlights/Benefits

6 Major Projects

Industry Mentor Sessions

Real Deployment Portfolio

AI-powered Coding Tools

Interview & Placement Prep

Hybrid Learning
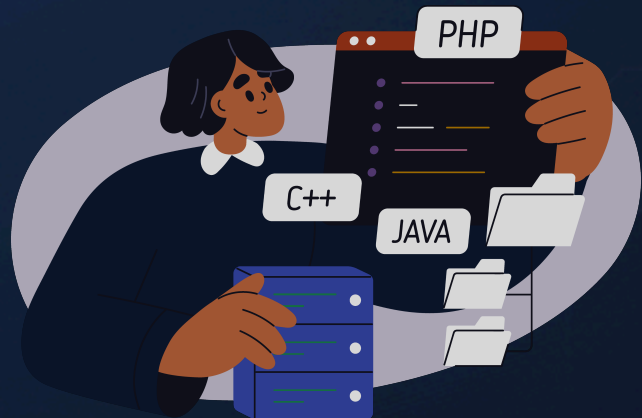

Frontend Development Program

(3 Months)

- ✓ HTML, CSS, Bootstrap, Tailwind
- ✓ JavaScript Core + ES6
- ✓ React.js Essentials
- ✓ Next.js Foundations
- ✓ Component Architecture
- ✓ API Integration & State Management
- ✓ UI/UX Fundamentals
- ✓ AI in UI Development (Auto layouts, AI color suggestions)

Backend Development Program

(3 Months)

- ✓ Node.js + Express.js
- ✓ Server Architecture
- ✓ JWT Authentication
- ✓ Secure API Development
- ✓ Logging & Error Handling
- ✓ Microservices Basics
- ✓ Database Integration
- ✓ AI-Assisted Documentation & Test Writing

Database Development Program

(3 Months)

- ✓ SQL Fundamentals
- ✓ NoSQL Concepts
- ✓ ER Diagrams
- ✓ Query Optimization
- ✓ Database Security
- ✓ Backup & Recovery
- ✓ AI Query Generation

AI-Powered Development Skills You Will Gain

- ✓ AI-based Code Generation
- ✓ Debugging & Fix Suggestions
- ✓ Auto Documentation
- ✓ AI UI/UX Generation
- ✓ API Testing with AI
- ✓ Auto DB Query Generation
- ✓ Git Commit Auto Message
- ✓ AI Refactoring

Build 6+ Job-Ready Real Projects

Full E-commerce Web App

Blog + CMS Platform

Job Portal

API-based Microservice

Admin Dashboard

Real-time Chat App

Why Choose ITTStar

01 Industry-level curriculum

02 AWS Advanced Tier Partner training methodology

03 Mentorship by real software developers

04 Small cohort sizes (max 20)

Key Highlights:

05 1:1 Doubt Clearing

06 100% practical exposure

07 Career guidance & placement assistance

08 AI-integrated learning workflow

Program Structure

Program	Duration	Mode	Projects	Certification
Full-Stack Development	6 Months	Hybrid (classroom + online)	6 Projects	Certification
Frontend Development	3 Months	Hybrid (classroom + online)	3 Projects	Certification
Backend Development	3 Months	Hybrid (classroom + online)	3 Projects	Certification
Database Development	3 Months	Hybrid (classroom + online)	2 Projects	Certification
